Superior headlamp

WHAT MAKES MAGIC CNG SUPERIOR?

A bigger 12.5* Kg cylinder that's double the capacity offered by the competition. Which means, lesser trips to the CNG fuel stations and more time for business.

275 SI CNG 'best in its class' multi point gas injection engine for improved power, faster pickup and better fuel efficiency.

Best in its class in power & torque for climbing the slopes easily.

Stainless steel piping system and other safety features ensure absolute safety.

Wide cushioned seats, Ample leg room and headroom ensure a comfortable ride for the passengers. Also there are options available in seating arrangements.

The cylinder is placed behind the seats in the rear - hence easy to access and service.

Magic has the following advantages that make it much better than the other vehicles in its class as far as starting issue in rains is concerned.

- Magic CNG does not break down like other vehicles in the rain.
- Water Proof connectors in the wiring circuit to prevent short circuits during rains.
- Spark plug located at mid position at significant height to minimise contact with water.
